BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

CHIEF OF BUREAU  
ASSISTANT CHIEF OF BUREAU  
ASSISTANT CHIEF OF BUREAU

**FRUIT INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting fruit and fruit trees.

**JAPANESE AND ASIATIC BEETLE INVESTIGATIONS**  
Investigations to develop methods of control of Japanese and Asiatic beetles.

**FOREST INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting forest trees and wood products.

**TRUCK CROP & GARDEN INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting truck crop and garden and greenhouse plants.

**CEREAL AND FORAGE INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting cereal and forage crops.

**COTTON INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting cotton.

**BEE CULTURE**  
Investigations on bees and bee products and the use of bees in the pollination of economic plants.

**INSECT IDENTIFICATION**  
Identification and classification of insects including studies on insect anatomy and morphology.

**INSECTS AFFECTING MAN AND ANIMALS**  
Investigations to develop methods of control of insects attacking man and animals and the insect pests of households.

**CONTROL INVESTIGATIONS**  
Investigations on effect of insecticides, repellents, and attractants on insects and development of methods of applying control principles commercially.

**FOREIGN PARASITE INTRODUCTION**  
Exploration to discover natural enemies of insect pests and the importation of beneficial species.

**ADMINISTRATION**  
Direction of business operations including budget, accounts, audits, personnel, purchase and property, mail and files, claims and leases.

**EDITORIAL**  
Receives and prepares for publication scientific and technical manuscripts.

**LIBRARY**  
Maintenance of a library of entomological literature and the preparation of bibliography on entomological subjects.

**INSECT PEST SURVEY & INFORMATION**  
Collection and recording of data on insect pest conditions; preparation of press and radio releases; direction of photographic and drafting work; and distribution of technical and other publications.

**FOREIGN PLANT QUARANTINES**  
Enforcement of foreign plant quarantines at ports of entry; certification of plant products to meet sanitary requirements of foreign countries.

**DOMESTIC PLANT QUARANTINES**  
Enforcement of miscellaneous domestic plant quarantines in cooperation with state officials, postal authorities, and common carriers; and the inspection, in transit, of plant products regulated under Federal quarantine.

**PLANT DISEASE CONTROL**  
Control and prevention of spread of plant diseases including Blister Rust, Dutch Elm Disease, Prunus Peach, Citrus Canker, and Black Stem Rust.

**DATE SCALE CONTROL**  
Control and prevention of spread of date scale, including enforcement of Federal quarantine.

**JAPANESE BEETLE CONTROL**  
Control and prevention of spread of the Japanese beetle; and the inspection and certification of products to meet the requirements of Federal and State quarantines on Japanese beetle, European corn borer, gypsy, brown-tail, and satin moths.

**GYPSY & BROWN-TAIL MOTH CONTROL**  
Control and prevention of spread of gypsy and brown-tail moths.

**MEXICAN FRUIT FLY CONTROL**  
Control and prevention of spread of Mexican fruit fly, including enforcement of Federal quarantine.

**PINK BOLLWORM & THURBERIA WEEVIL CONTROL**  
Control and prevention of spread of Pink Bollworm and Thurberia weevil, including enforcement of Federal quarantines.

ASSISTANT CHIEF OF BUREAU  
SPECIAL RESEARCH ASSISTANT

**FRUIT INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting fruit and fruit trees including Japanese and Asiatic beetles.

**FOREST INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting forest and shade trees and wood products.

**FRUITFLY INVESTIGATIONS**  
Investigations to develop methods of control of fruit flies.

**GYPSEY AND BROWN-TAIL MOTH CONTROL**  
Control and prevention of spread of gypsy and brown-tail moths.

**MEXICAN FRUITFLY CONTROL**  
Control and prevention of spread of Mexican fruit fly including enforcement of Federal quarantine.

**PLANT DISEASE CONTROL**  
Control and prevention of spread of white-pine blister rust and black stem rust.

**JAPANESE BEETLE CONTROL**  
Control and prevention of spread of the Japanese beetle and the Dutch elm disease, including enforcement of Federal quarantines on Japanese beetle, Dutch elm disease, and gypsy and brown-tail moths; also certification of products to meet requirements of State quarantines on European corn borer.

**DOMESTIC PLANT QUARANTINES**  
Enforcement of domestic plant quarantines in cooperation with State officials, postal authorities, and common carriers; inspection in transit of plant products regulated under Federal quarantine, control and prevention of spread of phony peach disease, peach mosaic, citrus canker, sweetpotato weevil, and white-fringed beetle; and cooperation with State and local agencies in control of widespread outbreaks of grasshoppers and Mormon crickets.

**CONTROL INVESTIGATIONS**  
Investigations on effect of insecticides, repellents, and attractants on insects and development of methods of applying control principles commercially.

**BUSINESS ADMINISTRATION**  
Direction of business operations including budget, accounts, audits, personnel, purchase and property, mail and files, claims and leases.

**EDITORIAL**  
Receives and prepares for publication scientific and technical manuscripts.

**LIBRARY**  
Maintenance of a library of entomological literature and the preparation of bibliography on entomological subjects.

**INSECT PEST SURVEY AND INFORMATION**  
Collection and recording of data on insect pest conditions; preparation of press and radio releases; direction of photographic work and distribution of technical and other publications.

**CEREAL AND FORAGE INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting cereal and forage crops.

**TRUCK CROP AND GARDEN INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting truck crop and garden and greenhouse plants.

**COTTON INSECT INVESTIGATIONS**  
Investigations to develop methods of control of insects affecting cotton.

**PINK BOLLWORM AND THURBERIA WEEVIL CONTROL**  
Control and prevention of spread of pink bollworm and Thurberia weevil including enforcement of Federal quarantines.

**INSECT IDENTIFICATION**  
Identification and classification of insects including studies on insect anatomy and morphology.

**INSECTS AFFECTING MAN AND ANIMALS**  
Investigations to develop methods of control of insects attacking man and animals and the insect pests of households.

**FOREIGN PLANT QUARANTINES**  
Enforcement of foreign plant quarantines at ports of entry; certification of plant products to meet sanitary requirements of foreign countries.

**BEE CULTURE**  
Investigations on bees and bee products and the use of bees in the pollination of economic plants.

**INSECTICIDE INVESTIGATIONS**  
Investigations on the chemical and physical properties of insecticides, attractants, and repellents useful for the control of insects.

**FOREIGN PARASITE INTRODUCTION**  
Exploration to discover natural enemies of insect pests and the importation of beneficial species.
